Selangor, Where The Industry Takes Flight

SAS2024 is a platform uniting global industry leaders and local SMEs under one roof. This fourth instalment of the event is now bigger than ever. Experience the cutting-edge developments in aerospace and aviation at the heart of Selangor, Malaysia's economic hub.

This event features local and international exhibitors showcasing the latest innovations from general and business aviation, drones to helicopters to MRO services and talent. Join leaders of the industry and experts focusing on exploring the present and future of the aviation industry.

SAS2024 is where the industry's brightest converge, connect, and collaborate to take the industry to new sustainable heights.

About The Organiser

Invest Selangor Berhad (ISB) is a one-stop agency playing a key role in **promoting and attracting both local and foreign direct investments to set up ventures in Selangor.**

Recognising the importance of the aviation industry as a major economic lever, and to maintain Selangor's dominant position, Selangor Darul Ehsan Aerospace Industry Coordination Office (S-DAICO) was established to oversee the industry development identified under **Selangor Aerospace Action Plan 2020 - 2030.**

S-DAICO is a division under ISB and responsible for the **coordination, execution, management and monitoring of the Selangor Aerospace growth, development as well as promotion.**

The establishment of S-DAICO plays a critical role in **strengthening Selangor as the leading investment and trading destination for the aerospace industry** as well as to attract more foreign investors.
