INTRODUCTION

About SAS 2024

VENUE PLAN

EXHIBITORS’ PROFILE

FOREWORD

Bismillahirrahmanirahim,

Assalamualaikum wrt wbt and Salam Sejahtera, Salam Malaysia Madani.

Welcome to Selangor Darul Ehsan, Malaysia’s most dynamic and economically advanced region, renowned for its remarkable growth and urbanization. This year, Selangor set an ambitious goal to attract RM50 billion in investments. As we received the latest figures from the Department of Statistics Malaysia (DOSM), announced on 2nd July 2024 shows that Selangor has achieved a significant 7.43% GDP growth from 2021 to 2023, outperforming the targets outlined in the Rancangan Selangor Pertama (RS-1) initiative. This achievement highlights the state government’s commitment to sustainable and impactful economic development, solidifying Selangor’s position as a pivotal regional hub.

The Rancangan Selangor Pertama (RS-1) lays out a visionary strategy for advancing Selangor’s economic and infrastructural landscape, with a significant focus on the aviation sector. In this context, the Selangor Aviation Show (SAS) stands as a cornerstone event, embodying our ambition to transform Selangor into a leading aviation hub. By drawing global industry leaders and showcasing advancements in aviation infrastructure and innovation, SAS plays a crucial role in attracting investment, creating job opportunities and enhancing Selangor’s strategic importance in the aviation industry. Our goal is to not only meet the objectives set forth in the RS-1 but also to position Selangor as the gateway to ASEAN for local, regional and international businesses.

Over the past three years of hosting the Selangor Aviation Show (SAS), we have seen firsthand how business-to-business (B2B) meetings transform the buzz and enthusiasm of the event into real, actionable investment opportunities. These meetings enable direct, focused interactions between companies and potential investors, allowing for the presentation of groundbreaking innovations and the forging of strategic partnerships. As the aviation sector is currently driven by key trends, such as the push for sustainability through greener technologies, digital transformation enhancing operations and passenger experiences and the burgeoning field of urban air mobility, B2B meetings offer a crucial platform to align these trends with investor interests. By capitalizing on the energy and momentum of SAS, we aim to turn these emerging trends into actionable investments that will drive the industry forward.

I trust you will find the Selangor Aviation Show and its programs both engaging and valuable.

Thank you for joining us and I wish you a wonderful and productive stay in Selangor.

“

The Selangor Aviation Show (SAS) stands as a cornerstone event, embodying our ambition to transform Selangor into a leading aviation hub. By drawing global industry leaders and showcasing advancements in aviation infrastructure and innovation.

”

YAB Dato’ Seri Amirudin bin Shari
Chief Minister of Selangor

FOREWORD

As we approach the highly anticipated Selangor Aviation Show 2024, it is with immense pride and enthusiasm that I extend a heartfelt welcome to all participants, partners and aviation enthusiasts.

Selangor, as a thriving hub for innovation and economic growth, continues to experience remarkable investment expansion. According to information provided by the Ministry of Investment, Trade and Industry (MITI), Selangor attracted the highest investment value in Malaysia, totalling RM231.7 billion between 2019 and 2023. This impressive achievement represents 18 percent of the total RM1,285.5 billion in approved national investments during that timeframe. These figures underscore our commitment to fostering a robust industrial landscape and solidifying Selangor's pivotal role in Malaysia's economic development.

Aligned with the Malaysian Aerospace Industry Blueprint 2015-2030 (MAIB), which aims to position Malaysia as the leading aerospace hub in Southeast Asia and a key player in the global market by 2030, the Selangor Aviation Show is committed to supporting this ambitious vision. The blueprint aims to achieve a bold target of RM55.2 billion in revenue generating over 32,000 high-income jobs. We believe that the Selangor Aviation Show will be a catalyst for reaching these goals by showcasing our advancements and potential in the aviation sector.

These strides are particularly pertinent to the aviation industry, where Small and Medium Enterprises (SMEs) are at the forefront of innovation in technology and support services, driving significant advancements that shape the future of the sector. In parallel, the NextGen Leaders program aims to equip young people with a comprehensive understanding of aerospace and aviation, fostering skills and knowledge that align with the evolving needs of SMEs and the industry at large.

This initiative not only reaffirms our commitment to nurturing the next generation of aviation talent but also ensures that these future leaders are well-prepared to contribute to and benefit from the advancements spearheaded by SMEs.

The Selangor Aviation Show 2024 not only serves as a key platform for showcasing these advancements and fortifying industry connections but also provides invaluable networking opportunities. By bringing together industry leaders, innovators and policymakers, the event facilitates the exchange of ideas, fosters collaborations and explores emerging trends.

As we embark on this exciting journey with the Selangor Aviation Show 2024, I eagerly anticipate the ongoing growth and success of our aviation sector and the positive impact it will have on our state and beyond.

Don't miss your chance to be part of an event that will ignite innovation and shape the future. Thank you.

“ By bringing together industry leaders, innovators and policymakers, the event facilitates the exchange of ideas, fosters collaborations and explores emerging trends. ”

Y.B. Tuan Ng Sze Han
Selangor State Executive
Councillor for Investment,
Trade and Mobility

FOREWORD

Welcome to the fourth edition of the Selangor Aviation Show!

Invest Selangor Berhad, as a leading state government agency, is dedicated to boosting global investment in the region. Spanning seven core clusters, including transport equipment, we strive to refine our offerings, boost global involvement and explore groundbreaking fields such as sustainable aviation and innovations in aerospace technology. We aim to streamline the investment process, providing a hassle-free experience for both new and existing investors looking to establish a presence in Selangor, the renowned ‘Golden State of Malaysia’.

Leveraging 25 years of expertise, we offer bespoke advisory services to enhance, facilitate and orchestrate investment opportunities. Our commitment is to position Selangor as Malaysia’s economic powerhouse, driving forward with the Selangor Aerospace Action Plan (SAAP) through our dedicated aerospace division, S-Daico. The SAAP aims to establish Selangor as a premier aerospace hub in the region, in alignment with the Malaysian Aerospace Industry Blueprint 2015-2030 (MAIB).

The SAAP sets out vital initiatives to tackle industry challenges such as funding, infrastructure and talent development. At the Selangor Aviation Show, we are eager to engage with a diverse spectrum of international and local investors and partners. This includes specialists in aircraft components, systems and materials, as well as Maintenance, Repari and Overhaul (MRO) service providers and innovators in aerospace technology like AI, automation and smart manufacturing.

We aim to make the Selangor Aviation Show a global powerhouse by adopting an ambitious and strategic approach to expanding its reach, solidifying our role in the ASEAN region and elevating it to the level of the world’s leading airshows. By benchmarking against premier global events, we intend to enhance the scale and scope of our exhibition, establishing it as a significant player in the international aerospace sector.

We are confident that the Selangor Aviation Show will continue to gain prominence, offering invaluable opportunities for industry professionals and contributing to the global aerospace community. From groundbreaking technologies to sustainable practices, the Selangor Aviation Show embodies the spirit of innovation that will shape the future of aviation.

I offer my warmest wishes to all participants and trust that this event will be a game-changer, paving the way for a future with unbounded skies and endless opportunities.

Thank you for joining us!

“ From groundbreaking technologies to sustainable practices, the Selangor Aviation Show embodies the spirit of innovation that will shape the future of aviation. ”

Drones Kaki is Malaysia's leading premium drones store since 2014. Over the years, the company has grown from retail stores to become one of the biggest distributors of various unmanned aerial vehicle (UAV) & remotely operated vehicle (ROV) across the country. Fuelled with passion for innovations, the company operates the first-ever Malaysian DJI Enterprise Authorized Store located in Petaling Jaya, Selangor - offering dronetech solutions and services to the rapid growing market adaptation. Under the company training arm, the official DJI Academy was established in 2021 which has bagged global award for the outstanding performance, attracting almost twenty nationalities over the world to train and certified as DJI drones pilot.

The Malaysian Army was established in 1933 and involved in fighting communist counter- insurgency warfare in Malaysia. The Malaysian Army is the biggest component of the Malaysian Armed Forces consisting of seventeenth regiments and corps. The regiments and corps are divided into combat, combat support and service support. Presently, the warfighting environment is more complex and dynamic. Therefore, the Malaysian Army will need to innovate to remain relevant and important.
