

**SELANGOR**  
AVIATION SHOW 2022

# THE ONE & ONLY BUSINESS AVIATION SHOW IN THE REGION

## 08-10 SEPTEMBER

SKYPARK REGIONAL AVIATION CENTRE, SELANGOR, MALAYSIA

**“We already have a diamond in the rough with Subang Airport and we are determined to help unlock the potential in this airport to support and sustain growth in the business and general aviation industry.”**

YAB Dato' Seri Amirudin bin Shari, Chief Minister of Selangor

# SELANGOR, PROPELLING MALAYSIA'S AEROSPACE INDUSTRY

The aerospace industry has seen steady growth over the years despite the current global challenge, demonstrating its resilience and potential to continue creating long-term economic value for the nation. In realising Malaysia's aspiration to become a leading aerospace hub in ASEAN, development strategies are focused on leveraging the competitiveness of Selangor as Malaysia's most progressive state in propelling the industry forward.

A proud home to over 62% aerospace companies, Selangor has established a strong ecosystem, fortifying its capability to support the growing demand of the sector, particularly for the Asia-Pacific region. Its unrivalled geographical advantage, industrial real estate and infrastructure complemented by a diverse talent pool offer transformational opportunities for global industry players to take their businesses to greater heights.

# THE ONE & ONLY BUSINESS AVIATION SHOW IN THE REGION

Selangor Aviation Show (SAS) 2022 is a platform designed to bridge industries and relevant communities for an exploration of business and growth possibilities. Bringing together the world's finest under one roof, we create an avenue for thought leadership and learning opportunities that will redefine the aviation industry as we know it.

The one and only of its kind, this second instalment of SAS 2022 is a three-day event that will feature local and international exhibitors showcasing the latest innovations in the general and business aviation sectors as well as the helicopter sub-sector. Be part of the discourse led by the industry leaders and experts focusing on unpacking challenges and future-proofing aviation to navigate the current times.

SAS 2022 is where the best converge, connect and collaborate in unlocking the potential of the aviation future.

Invest Selangor is a one-stop agency that provides informational and advisory services to potential and existing investors as well as assistance in setting up ventures in Selangor.

Recognising the importance of the aviation industry as a major economic lever, the agency initiated the Selangor Darul Ehsan Aerospace Industry Coordination Office (S-DAICO), a division entrusted with the mandate to lead the growth of the aviation industry in Selangor. S-DAICO plays a critical role in strategising, coordinating and delivering projects for the Selangor State Government, in collaboration with State Government Linked Companies (GLCs), the Federal Government and its agencies for the development of the aviation industry within the state of Selangor.
